
UPDATE ON THE IANA STEWARDSHIP TRANSITION

What is the IANA stewardship transition?

- **March 2014 -**
NTIA announced transition of IANA stewardship
- Asked ICANN to convene a process to develop transition proposal
- Current NTIA-ICANN contract expires Sept 30, 2016

NTIA's Criteria

Support and enhance the multistakeholder model

Maintain the security, stability, and resiliency of the Internet Domain Name System (DNS)

Meet the needs and expectation of the global customers and partners of the IANA services

Maintain the openness of the Internet

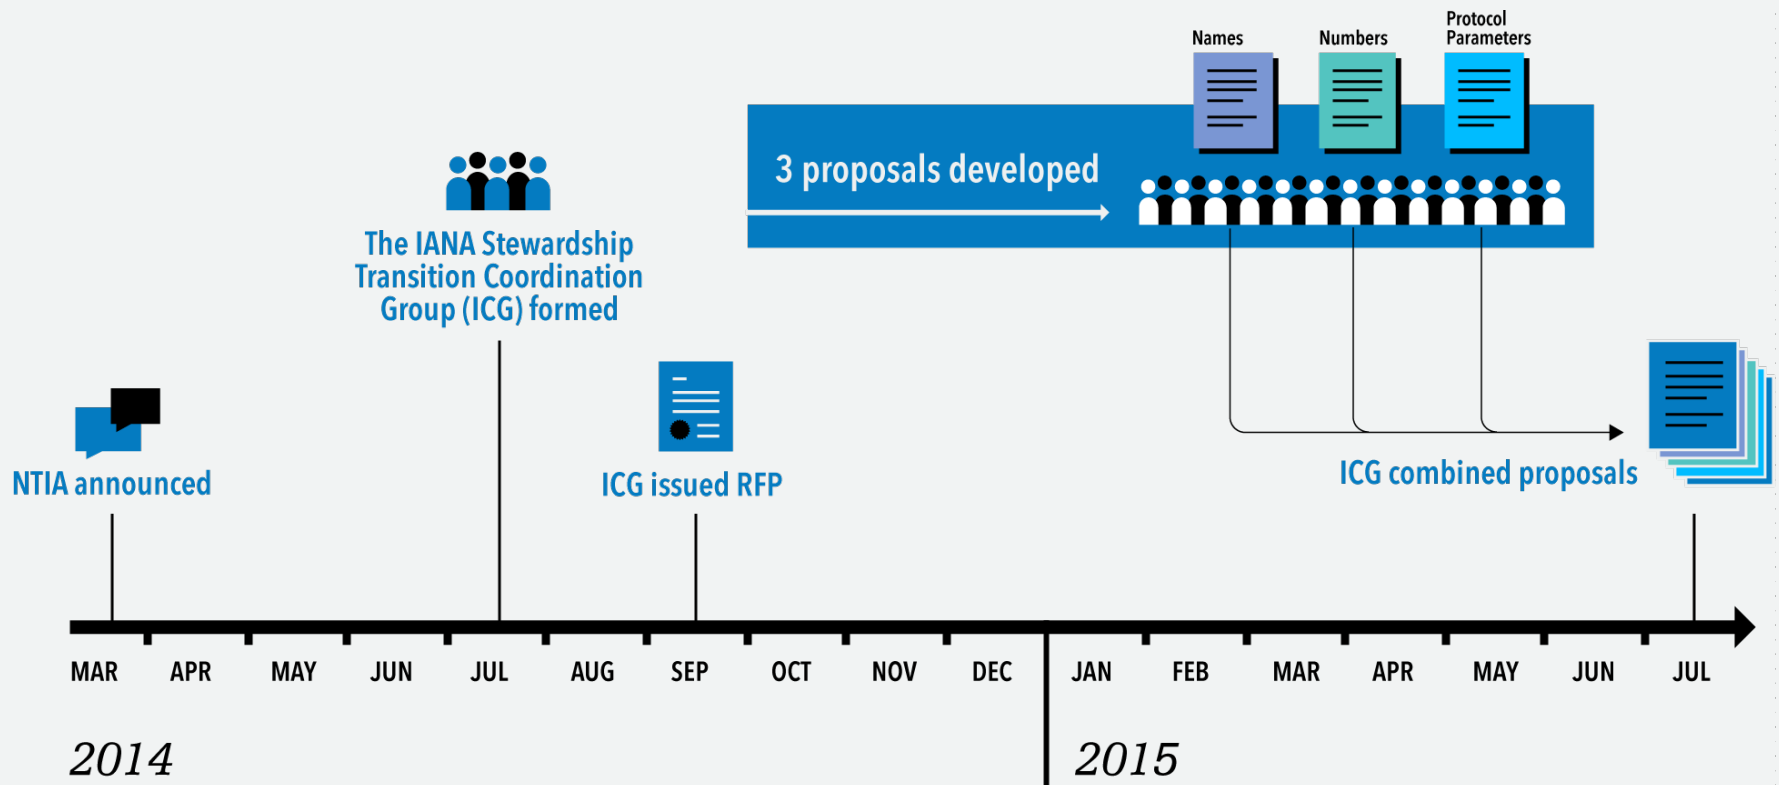

NTIA's Expectations

Broad community support

Does not replace NTIA role with a government-led or an inter-governmental organization solution

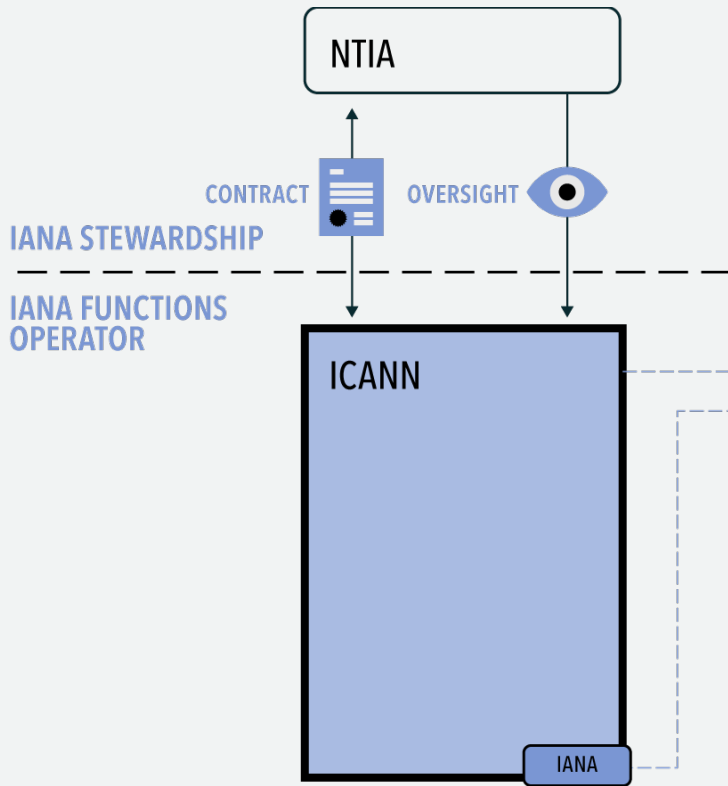

Transition Proposal

ONGOING SECURE, STABLE, AND RESILIENT IANA FUNCTIONS
